RENEWABLE ENERGY

dri

September 17-18, 2025 | Chicago, IL

The national energy landscape is rapidly evolving, demonstrated by the increasing emergence of renewable energy projects and recent change in administration. Join DRI and its Center for Law and Public Policy to learn how legal experts anticipate these renewable energy projects may unfold and how it will impact you and your clients.

What You Will Learn:

- Unique perspectives from both law firm and industry thought leaders on the state of renewable energy litigation.
- Recent developments in renewable energy litigation.
- Predictions about how renewable energy litigation may change over the next four years.
- What you need to watch for in your practice regarding renewable energy litigation.

Expand Your Network By:

- Connecting with law firm and in-house thought leaders on renewable energy litigation.
- Engaging in small group roundtable discussions.
- Participating in the networking reception, dine arounds, and networking lunch.

Be Prepared for Incoming Energy Policy Changes!

NETWORKING EVENT

Kick off your evening at our Welcome Networking Reception at the South Branch Tavern and Grill along the Chicago riverfront. Join us for an unforgettable evening of connections and Chicago charm.

Location: South Branch, 100 S Wacker Dr, Chicago, IL 60606

SESSIONS

Offshore Wind Energy

This session will focus on the current state of the offshore wind energy industry, including the current state of offshore wind projects, as well discussion about what the future may hold for the industry in the United States.

Onshore Wind Energy

This session will focus on the onshore wind energy industry with a discussion on current projects and litigation around the country.

Solar Energy

This session will discuss the current state of the solar industry with a particular focus on some of the legislative, regulatory, and litigation challenges facing the industry.

Future of Renewables

With industry leaders hailing from the wind, solar, and battery storage industries, this panel will step back from litigation and look more generally at the legal and policy challenges and opportunities facing the renewable energy industry in the next four years.

Energy Roundtable Discussion

We will invite the industry leaders from prior panels to return for an open discussion focusing on the future of the Renewable Energy Industry in this country.
